

90 DEGREE NODE SERVICE CABLE

PDS-0224

DESCRIPTION

The 90° Node Service Cable design is ideal for saving space in MDU backboards, OSP cabinets and underground vaults. All Wirewerks Node Service Cables feature a rotational nut to avoid cables twists as well as an additional free rotating hex-nut to secure the first nut safely and quickly.

Wirewerks assemblies are designed and terminations tested to Telcordia GR-326 and GR-3120 requirements.

FEATURES and BENEFITS

- Designed for quick, easy and reliable installations, where space is limited
- Armored and dielectric cables available
- Cable twist-free 5/8"-24-thread node adapter
- 100% manufactured and tested in Wirewerks factory
- Low insertion and return loss
- Interferometer test results available upon request
- Quick and easy installation

APPLICATIONS

- CATV node drop
- FTTx optical network unit (ONU) node service drop

**CERTIFICATION
and COMPLIANCE**

ITU-T G.652.D

**PACKAGING
and SHIPPING**

Description
Cardboard box

**MECHANICAL
SPECIFICATIONS**

Parameter	Value
Installation Temperature	-30°C (-22°F) ~ 60°C (140°F)
Operating Temperature	-40°C (-40°F) ~ 70°C (158°F)
Storage Temperature	-40°C (-40°F) ~ 75°C (167°F)
Pull Strength Long Term	400 N (90lbf)
Pull Strength Short Term	1335 N (300lbf)

**PERFORMANCE
SPECIFICATIONS**

Parameter	Value	
Insertion Loss	UPC	≤0.30 dB
	APC	≤0.30 dB
Return Loss	UPC	≤-55 dB
	APC	≤-65 dB

ORDERING INFORMATION

Part Number Builder	Description
W9N - Y AA NN XX Y WWW ZZZZ	90 DEGREE Node Service Cable Assembly

Cable Type		Fiber Type		Fiber Count		Connector Type		Polish		Fiber Leads Length (m)*		Assembly Length (m)**						
A	Armored outdoor loose tube	9S	900 micron Single Mode (Color sequence as per TIA-598-C)	02	2 fiber	FC	FC	A	APC	001	1							
				04	4 fiber													
B	Armored outdoor dry loose tube	2S	2mm Single Mode (yellow)	06	6 fiber	SC	SC	U	UPC									
N	Non-Armored outdoor loose tube	3S	3mm Single Mode (yellow)	08	8 fiber	LC	LC											
O	Non-Armored outdoor loose tube dry	28	2mm Single Mode (Color sequence as per TIA-598-C)	10	10 fiber	ST	ST											
													38	3mm Single Mode (Color sequence as per TIA-598-C)	12	12 fiber	L6	LC 60%-SC 40%
													68	1.6mm Single Mode (Color sequence as per TIA-598-C)	16	16 fiber		

*By default, the length of the leads is 1 meter (001). If a decimal is required, add "D0" right after the non-decimal value and without leaving any space between. The "0" in "D0" must be replaced by the desired value. Example: A node service cable with leads of 0.5 meter shall read as 0D5; if the leads are 1.5 meters, it shall read 1D5.

** If a decimal is required, add "D0" right after the non-decimal value and without leaving any space between. The "0" in "D0" must be replaced by the desired value. Example: an assembly with an overall length of 25.5 meters shall read as 25D5.
