Conduit Maximization Solutions

NO MATTER WHERE YOU ARE  
IN THE PROJECT **MAXCELL FITS**

## MAXCELL FABRIC INNERDUCT

MaxCell® is revolutionizing the network construction industry with its flexible, multi-celled, fabric innerduct solution. The unique fabric construction allows MaxCell to conform to the shape of cables placed within, greatly reducing the wasted space associated with rigid innerduct. Today's network operators use MaxCell to increase installation speed, increase cable density and reduce overall project costs.

### INTRODUCING MAXCELL EDGE

The MaxCell Edge product line features a new fabric design which may reduce pulling tension by up to 20% over previous MaxCell versions when installing cables. Its TELCO orange color makes for easy identification in your network.

MaxCell Edge Standard and Detectable products are available in multiple sizes and configurations for use in 1" to 4" conduit and available in 1, 2, 3-cell configurations (4-cell limited to specific products). Plenum and Riser versions of MaxCell are also available. Contact customer service for more information on your specific application.

**ADDITIONAL MAXCELL PRODUCTS:** Contact customer service for product selection assistance.

MaxCell Installation Kits	Provides a cost effective, reusable, and efficient means for MaxCell installations
MaxLube	Cable-pulling lubricant that provides the fastest pull possible
MaxBag	Self-inflating sealing bag that seals between underground cable conduit and cables
Termination Bag	Reusable sealing bag inflated via durable metal tire valve
Override Paddles	Compresses cables to the bottom of the conduit providing space for placement of MaxCell

### 300% MORE CABLE

Traditional construction in a 4" conduit allows 3 cables to be placed. MaxCell triples the capacity, allowing up to 9 cables to be placed in the 4" conduit.

### 2X AS FAST

Actual Field Experience Report: Installers and Network Engineers can cut conduit installation time in half and increase cable installation speed.

### CUTS TOTAL PROJECT COSTS

Independent surveys and field experience prove that MaxCell reduces material and labor costs by 50% and more.

**400+ MILLION** FEET OF MAXCELL INSTALLED GLOBALLY

**MaxSpace®**  
CONDUIT SPACE  
RECOVERY

Conduit Maximization Solutions

**1+ MILLION**  
FEET OF INNERDUCT  
EXTRACTED OVER ACTIVE CABLE

MaxSpace® is a no-dig conduit space recovery solution designed to safely remove rigid innerduct from around active fiber cables with little to no load on the cable and no interruption of service. Use that new space to load your conduit with MaxCell and provide the pathways you need now and in the future!

## WHY MAXCELL?

- Eliminate new network construction
- Place 300% more cables
- Install 2x faster
- Save on network construction
- Reduce freight and storage costs
- Reduce material and labor costs
